TOP TIPS

Many applications are declined because there is not enough funding to go around. If you are not sure why your application has been declined contact the funder. Some funders will consider another application in the next funding round if lack of funds is the reason for the decline.

Ask someone else to read over your application to make sure it makes sense and is free from errors.

Gaming Trusts will generally only grant funding in areas where they have venues. Check first to ensure there are venues in your area.

Many funders list on their website organisations they have previously granted funds to. Have a look to get an idea of the level of funds being granted and to what sorts of organisations.

Use Excel for budgets rather than Word to minimise calculation errors.

Performance Reports / Financial Statements should be signed off by your Board / Committee / Trustees before being submitted to Charities Services or Incorporated Societies

TOP TIPS

A cover letter is a good way to let funders know specific things

Keep your text positive, convey to the funder what you will achieve with the funding and what the community benefit will be.

Funds must be used for the purpose stated on your application form and approved by the funder. Any variation must be approved in writing from the funder before any funds are spent.

Spending must not occur prior to the date the funding is approved. This is known as retrospective funding.

Any unused funds must be returned to the funder.

Check the period of time given to use the funds and provide an accountability report (3 - 12 months) and make sure the reporting is completed on time.

REPORTING

Reporting to a funder after funds have been spent is also known as an Accountability Report.

What you should be able to report:

- How much you have spent
- What you have achieved
- Who has benefited
- Any challenges
- User Feedback
- Evaluations
- Any Case Studies
